Padelos

Education

2018- -2024 **BSc in Informatics and Computer Engineering with Master integrated**, *University of West Attica*, Egaleo, Greece

Experience

Feb 2025- -Jul 2025 **Military Service**, *Hellenic Air Force*, Greece

Nov 2023- -Dec 2024 **QA Engineer**, *OPAP*, Athens, Greece

Responsibilities and achievements include:

- Conducted comprehensive API testing for **Intralot's Lotos X**, focusing on system reliability and data integrity.
- Collaborated with the cross-functional team to identify and resolve defects, enhancing overall software quality.
- Utilized tools such as **Postman** for API testing and **Jenkins** for CI/CD.
- Developed and maintained automated test cases to validate core system functionalities.
- Refactored and organized legacy test code to improve maintainability, performance, and readability.
- Created Python, JavaScript, and Bash scripts to automate repetitive testing tasks and system checks.
- Managed the Jenkins server, ensuring stability, continuous integration, and reliable test execution pipelines.
- Monitored test results and logs to identify recurring issues and contributed to root cause analysis.
- Helped design and implement automated test cases using Java Playwright with integrated reporting through Allure.

Nov 2017- -Feb 2018 **Accountant Assistant**, *CCC*, Marousi, Greece

Payroll statements preparation.

Projects

SolarExplorer AR mobile app that brings the solar system to life through interactive book content, audio and a virtual assistant for a deeper learning experience.

MuuusicApp A basic music player for android devices. Developed using Android Studio.

Maze A terminal maze of two players (one is bot) chasing a gem that changes position asynchronously. Developed in C++ using ncurses library

WebGL Dog 3D interactive doge in pure WebGL.

Expenses A php website to keep track of expenses. Developed using php and mariaDB

Skills

OS Ubuntu, Windows, POP!, Kali

Programming Languages C/C++, C#, php, Java, Python, Bash

Web Development HTML, CSS, JavaScript, WebGL

Technologies Git, REST APIs

Database MySQL, MariaDB

Testing & CI/CD Jenkins, Postman, Playwright, TestNG, Allure

Languages English B2
