Padelos

Education

2018-2024 **BSc in Informatics and Computer Engineering with Master integrated,**
University of West Attica, Egaleo, Greece

Experience

Feb 2025-Jul 2025 **Military Service, Hellenic Air Force, Greece**

Nov 2023-Dec 2024 **QA Engineer, OPAP, Athens, Greece**

Responsibilities and achievements include:

- Conducted comprehensive API testing for **Intralot's Lotos X**, focusing on system reliability and data integrity.
- Collaborated with the cross-functional team to identify and resolve defects, enhancing overall software quality.
- Utilized tools such as **Postman** for API testing and **Jenkins** for CI/CD.
- Developed and maintained automated test cases to validate core system functionalities.
- Refactored and organized legacy test code to improve maintainability, performance, and readability.
- Created Python, JavaScript, and Bash scripts to automate repetitive testing tasks and system checks.
- Managed the Jenkins server, ensuring stability, continuous integration, and reliable test execution pipelines.
- Monitored test results and logs to identify recurring issues and contributed to root cause analysis.
- Helped design and implement automated test cases using Java Playwright with integrated reporting through Allure.

Nov 2017-Feb 2018 **Accountant Assistant, CCC, Marousi, Greece**
Payroll statements preparation.

Projects

- SolarExplorer** AR mobile app that brings the solar system to life through interactive book content, audio and a virtual assistant for a deeper learning experience.
- MuuusicApp** A basic music player for android devices. Developed using Android Studio.
- Maze** A terminal maze of two players (one is bot) chasing a gem that changes position asynchronously. Developed in C++ using ncurses library
- WebGL Dog** 3D interactive doge in pure WebGL.
- Expenses** A php website to keep track of expenses. Developed using php and mariaDB

Skills

- OS** Ubuntu, Windows, POP!, Kali
- Programming Languages** C/C++, C#, php, Java, Python, Bash
- Web Development Technologies** HTML, CSS, JavaScript, WebGL
- Database** MySQL, MariaDB
- Testing & CI/CD** Jenkins, Postman, Playwright, TestNG, Allure
- Languages** English B2
